07/2015 - 05/2017   *62.2%*

S.S.C
Ishan International Public School,Patna, Bihar

05/2013 - 05/2015   *72.2 %*

PROJECTS

Blog - Website (06/2021 - 08/2021)
- Basically, It's a website where you write articles in some area of personal or professional interest.
- The Frontend is basically built with the help of HTML, CSS, and React.JS. which gives quite an impressive look at my Project.
- And backend of my project is basically I start with Node.Js and for the database which use to store data of my project, I use MongoDB and then API, which further link to the fronted to take responsibility.
- In this project, I learn about the frontend and backend of any website. And how websites work properly.

Image-collection Website (02/2021 - 04/2021)
- This is a simple photo collections website, which is used to show pictures with their respected categories collections. And upload & download easily.
- This website is made within the Django framework. which has login pages for photographers/clients who upload pictures.
- On this website, I learn about the Django framework and its tools. and learn who this project work in real life like Pinterest work.

Student Management System (07/2020 - 09/2020)
- This is a basic python project which is used in all the colleges/schools to take the details about all the students.
- This project was built with the help of Python Tkinter, MySQL database, its connection.
- Here I learn how to use Tkinter, and MySQL how to connected python to MySQL, to store database and show in a basic font.

SKILLS

`C` `C++` `HTML` `CSS` `DSA` `Problem solving` `MYSQL`
